<sup>&</sup>lt;sup>1</sup> Strike, Price: The suggested price range for opening a trade position in the direction of the signal. Value is calculated on price stability factors.

 $<sup>^{</sup> ilde{z}}$  Range: The average intraday momentum spread calculated from our suggested entry price

<sup>&</sup>lt;sup>3</sup> Q Score: The confidence of the signal's underlying model, calculated upon historic performance hit ratio. The model is optimized each trading day, thus signals for the same title on different dates might not have equal model parameters.
